PROFILE

I'm an engineering leader passionate about building awesome user experiences. My expertise is in cybersecurity, UX engineering, data visualization and developing efficient processes.

EDUCATION

- M.S. Human-Computer Interaction 2016 - 2018
Georgia Institute of Technology
 - Management of Technology Graduate Certificate
 - Graduate Research Assistant
- B.S. Computer Science 2012 - 2016
University of Massachusetts - Amherst
 - Concentration: Software Engineering
 - Commonwealth Honors College

PROJECTS

- GRADUATE THESIS
MLB Statistics Visualization
 - Design & development of a D3 InfoVis for MLB stats
 - User testing and iterating to optimize efficiency of consuming data
- UNDERGRAD HONORS THESIS
UX Implications of Google's Material Design FAB
 - Design & prototype mobile app to perform user testing of the FAB
 - Conducted user tests and analyzed qualitative & quantitative results

SKILLS

DEV

React | TypeScript | Design Systems | MUI | a11y | User Analytics | Data Visualization

WORK EXPERIENCE

- SIMSPACE 2018 - PRESENT
 - Engineering Manager - Cyber Range Platform 2024 - PRESENT
 - Own dev & maintenance of \$50M ARR cyber range SaaS platform
 - Work with customers to plan and deliver feature enhancements
 - Improved platform reliability & CX by **reducing reported defects by 87%**
 - Engineering Manager - UX Engineering 2022 - PRESENT
 - Proposed & built UX Eng team owning design system & FE standards
 - Built reusable UI components in Storybook for product eng teams
 - Improved product a11y & architected design token system for theming
 - Engineering Manager - LMS 2020 - 2022
 - Led up to 14 ICs delivering LMS product within cyber range platform
 - Collaborated cross-functionally with UX, Product, Sales & customers
 - Partnered with Product on roadmap, prioritization & feature delivery
 - Senior UX Engineer II 2018 - 2020
 - Architected front-end of cyber range platform in React & TypeScript
 - Created foundational design system that scaled into core UI library
 - Defined FE standards enabling teams to build consistent, performant UIs
- DRAPER LABS 2017
UX Researcher & Sembler Associate (Intern)
 - Designed a tactical UI, designed & ran UX performance metric tests
 - Conducted user tests to develop a set of heuristics for Microsoft Hololens
 - Lead generation & needs assessment for tech startups
- GAIN LIFE, INC. 2016
Product & UX Lead
 - Developed product vision & strategy working directly with CEO
 - Analyzed user needs & proposed, designed, implemented UX solutions
- TIMETRADE SYSTEMS INC. 2015
Software Engineer - Intern
 - Designed & developed Click To Check In web app prototype
 - Researched, designed, & implemented UX improvements to 4 products
- SEASCAPETECH 2010 - 2015
Founder & Owner
 - Created over 30 WordPress websites for clients in a variety of industries
 - Managed a team of 3 developers
- HYDROID INC. 2013
Web Development Intern
 - Designed & developed Hydroid's company intranet
 - Developed PHP plugin to manage of 100+ Windows Active Directory users
- EBSCO INFORMATION SERVICES 2012
User Experience Intern
 - Researched & proposed UX strategies for EBSCO Connection website
 - Analyzed mouse tracking, heat maps, and web traffic data
